## Black and Colors, and Only 200 in the Lot.

Here is news that every lady in need of a Silk Petticoat will welcome and enthuse over. There is no firm in the United States that gives a stronger or better guarantee than the S. H. & M. Co., and these skirts are made by this firm, and have the guarantee label attached to every band. If the skirt does not give satisfactory service bring it back and get a new one-no questions asked. These petticoats are made of a very fine quality of pure dye taffeta, with a 13-inch circular flounce, finished with 12 rows of stitching and 5 rows of pin tucks; full foundation and dust ruffle of best quality percaline. These skirts are cut full 52 inches through the hips and come in all lengths. They are positively new spring goods and just came in this week. Every one knows that a S. H. & M. Guaranteed Skirt is worth \$7.50, \$4.39 and this fact will cause a great rush tomorrow

# USE OF TUBERCULIN LATER DAY FAVORED

Its Value Proved in Testing House Expected to Advocate Health of Cattle.

Interesting Facts Set Forth in Dr. Vote to Provide for Constitutional Schroeder's Report.

GERM THEORY ESTABLISHED MAY HAVE NO OPPOSITION

No Case of Tuberculosis Believed Representative Gaines Finds Fault Possible Where the Parent

Germ Is Not Present.

### Dr. E. C. Schroeder.

with tuberculin and testing many thousands of both healthy and tuberculous protest against the Henry resolution was cattle, the Department of Agriculture has Representative Gaines of West Virginia, may be relied on for determining the and members of Congress. but that it is absolutely harmless to the inaugural date, suggested by the healthy animals even in doses many Henry measure, has been incubating in times the strength necessary to detect Mr. Gaines' committee since the beginthe disease in infected subjects.

In view of the effort that is being made by the Department of Agriculture to clean up the dairy herds of the District a report on the subject by Dr. E. C Schroeder of the Washington experiment station, made to the Secretary of Agriculture, is more than commonly timely and interesting. Dr. Schroeder calls attention to the fact that the germ of tuberculosis is well known and that every case of tuberculosis, whether in human beings or in cattle, has to spring from some pre-

### Must Be Parent Germ.

There are certain factors of darkness and dampners that favor the growth of been thrown out from an animal body, but the germ has to be there or there is no case of tuberculosis. He says that it is just as futile to expect a cornstalk to as to look for a case of tuberculosis if propagate it. For this reason when a in all of them. herd of cattle is cleared of the disease from the outside. It is this cleaning-up process that is in progress in the District now, and when the barns are

detect it from an outside examination till the animal is in the last stages, and that it may have been spreading infection broadcast for two years previous. His report shows some pictures of cattle that were proved to have the disease and that looked decidedly better than the average dairy cattle. Tuberculosis among dairy herds is more prevalent in some parts of the country than others, but it may be said that the average for the day in April will be. United States is 25 per cent, and this is a good deal lower than among the Euro-

## Justified by Results.

Besides the danger of infecting human beings that is always present in milk from a tuberculous herd the cattle themselves are much less productive. One farmer who had his herd cleaned up by mals being those he had reckoned as his best. He was game and discarded them all, cleaned up his place and filled the gaps in his herd with tuberculin tested animals. At the end of five years he reexpense as he had done since the clean- not consent to its passage. up, and that he considered the money it had cost as a good investment. lated states and 33 1-3 per cent were

Change in Inauguration.

HARMLESS TO ANIMALS RESOLUTION IS PENDING

Amendment Today.

With Construction of Measure,

But Approves Its Purpose.

Before adjournment today, in all probability, the House of Representatives will have passed the resolution introduced by Representative Henry of Texas and favorably reported from the committee on the judiciary, designed to set into motion the political machinery to put this change

### Refers Question to Voters.

The Henry resolution, which purposes an amendment to the Constitution of the United States, making necessary its ratification by three-fourths of the states before it can become effective, is admitted to afford the simplest method by which the shift from March 4 to the last Thursday in April can be accomplished.

It provides for the extension of the terms of the President, the Vice President and the terms of members of the House of Representatives, which will begin March 4, 1911, from March 4, 1913, to the last Thursday in April of that year. Similar provision is also made for extending the term of senators by this period as they expire after the date men-

#### Resolution Called Up.

Yesterday afternoon Representative Richard Wayne Parker called up the Henry resolution during the call of committees. After half a dozen brief speeches had been made, practically all favorable, and a couple of amendments designed to perfect the resolution had been offered, the subject was permitted to go over. There seems to be no doubt that it will

pass by a practically unanimous vote. The only member to raise his voice in culin test is not only the only one which election of the President, Vice President A resolution introduced by Mr. Gaines.

and also designed to effect the change in ning of the session. He seemed to feel hurt yesterday that the judiciary committee had beaten him to the proposi-

### Mr. Gaines' Criticism.

"It would be a piece of folly for the House to pass the pending resolution," Mr. Gaines declared, "as it fails to amend a specific section of article 12 of the Con-Mr. Gaines indicated his belief that the

judiciary committee, in its anxiety to be the first on the floor with a change-ofdate resolution, had failed to give due consideration to the subject

## Mr. Parker's Explanation.

Mr. Parker, after he had called up the States, Mr. Speaker, in unconsidered the germ and prolong its life after it has resolution, made a brief explanatory shape like this is but the natural result

simplest form possible. There have been many propositions in the past for changpring from barren and unseeded ground ing the time of the meeting of Congress and the time of the inauguration of the there has not been a parent germ to President. Complications have been found

the so-called 'short session' of Congress which we have every two years is entirely too short to do the necessary business. and we end on the 4th of March, having

months to that time; so that the practical months, and will enable Congress to leg-islate and relieve the immense amount of necessary to adapt our four-year Ameribusiness which has been always put over |

terest, and in which perhaps a good deal of human life is involved, is the date of the inauguration of the President. March 4 is not the right day. The last Thursday in April will be.

think of any other now that I have sufficiently reached a conclusion about to make a suggestion—perhaps, to send over to the Senate, the language in House joint resolution No. 5 might be tacked which has excited much more general in-"The sentiment in favor of this change

has grown so much during the time I shall not choose a President whenever have been in Congress that I regard it as the right of choice shall devolve upon practically unanimous. I shall not detain the House. I hope long debate will not them, before the last Thursday in April be necessary."

#### Defect Pointed Out by Gaines. Then Mr. Gaines took the floor.

"This is important," 'he said, "because it proposes to amend the Constitution of the United States. There has been a question of conflict of jurisdiction with much as under the new?" asked Mr. in Paperhangers' Hall, 7th and D streets, reference to this resolution, which, for Parker. personal reasons, because of requests made to me recently by one of the members of the committee on the judiciary, ported to the department that he had resolution in the form in which it has criticising your resolution because it does dabs may again enter the iron-clad temnever before done so well at such small been reported, is so defective that I can-not settle all the questions of the pres-perance society."
